COLLECTION OVERVIEW

A complete kitchen Sinks & Mixers portfolio.

01

SINKS

Single bowl • Double bowl • Workstation

02

MIXERS

Pull-out • Filtered water • Sensor

03

KETTLES & COFFE MACHINES

Classic • Digital • Coordinated finishes

A.E

A.E GROUP

Built around the way UAE projects really work.

A.E Group grew from direct experience in UAE residential and hospitality projects, where product selection must work with design intent, MEP requirements, joinery details and construction schedules.

Our View for " THE MARKET GAP"

Sinks and mixers often sit between kitchen-appliance supply, joinery coordination and MEP scope. **When no party gives the category clear ownershi**p, projects can face late selections, mismatched dimensions, incomplete technical data and avoidable cost changes.

OUR RESPONSE

We give this category dedicated attention from the beginning. Our range reflects real project needs, including dimensions, installation details, finishes, water-flow performance, approvals, lead times and after-sales support. This helps project teams specify with greater clarity and protect the budget without compromising design.

Designed for projects. Selected for real use.

Premium specification, more practical project value

Well-known premium brands offer strong recognition, but their pricing can exceed what many projects need.
A.E Group provides a focused alternative with contemporary products, direct local support and competitive pricing aligned with project requirements.

PROJECT CONSIDERATION	TYPICAL ESTABLISHED PREMIUM BRANDS	A.E GROUP
Price positioning	Premium pricing shaped by global brand structures	**Competitive pricing focused on specification value**
Project relevance	Standard international ranges may need project adaptation	**Range selected around UAE residential and hospitality needs**
Category ownership	Support may sit across appliance, kitchen and MEP scopes	**Dedicated focus on sinks, mixers and their coordination**
Technical support	Standard documents and options	**Direct support for dimensions, finishes, flow, accessories and approvals**
Communication	Regional or multi-layer communication channels	**Direct local project communication**
Finish selection	Broad premium portfolios, often with higher upgrade costs	**Contemporary finishes planned around project budgets**
Supply and follow-up	Depends on channel structure and available stock	**Local coordination from selection through delivery and follow-up**

Comparison describes market positioning and service approach. Final specifications, availability and commercial terms remain project-specific.

ALVEUS

COMPANY HISTORY

Milestones in design, manufacturing and innovation

1954 — 2020

Since 1954

2020 — Acquisition of a Finnish kitchen sink manufacturer STALA

2014 — 60th anniversary of Kovinoplastika Lož

2009 — Redesign of ALVEUS trade mark

1996 — Launch of ALVEUS trade mark

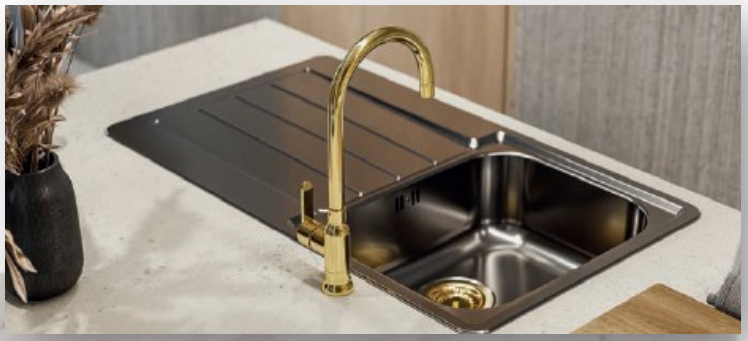

1989 — Starting with the production of GARTRONORM containers

1988 — The beginning of the production of kitchen sink made of one piece – monoblock

1968 — The start of production of stainless steel kitchen sinks

1954 — Establishment of Kovinoplastika Lož

ALVEUS

MODERN CLASSIC

Everlasting stainless steel designed into spectacular and high-quality Alveus kitchen sinks can be transformed into an iconic kitchen station by adding just a touch of sparkle with Alveus Monarch. Dare. Mix it up!
Kitchen sinks are equipped with the standard offer defined for each code.

Durability and Hygiene

Stainless steel sinks are highly durable, corrosion-resistant, and hygienic, making them
ideal for kitchen use.

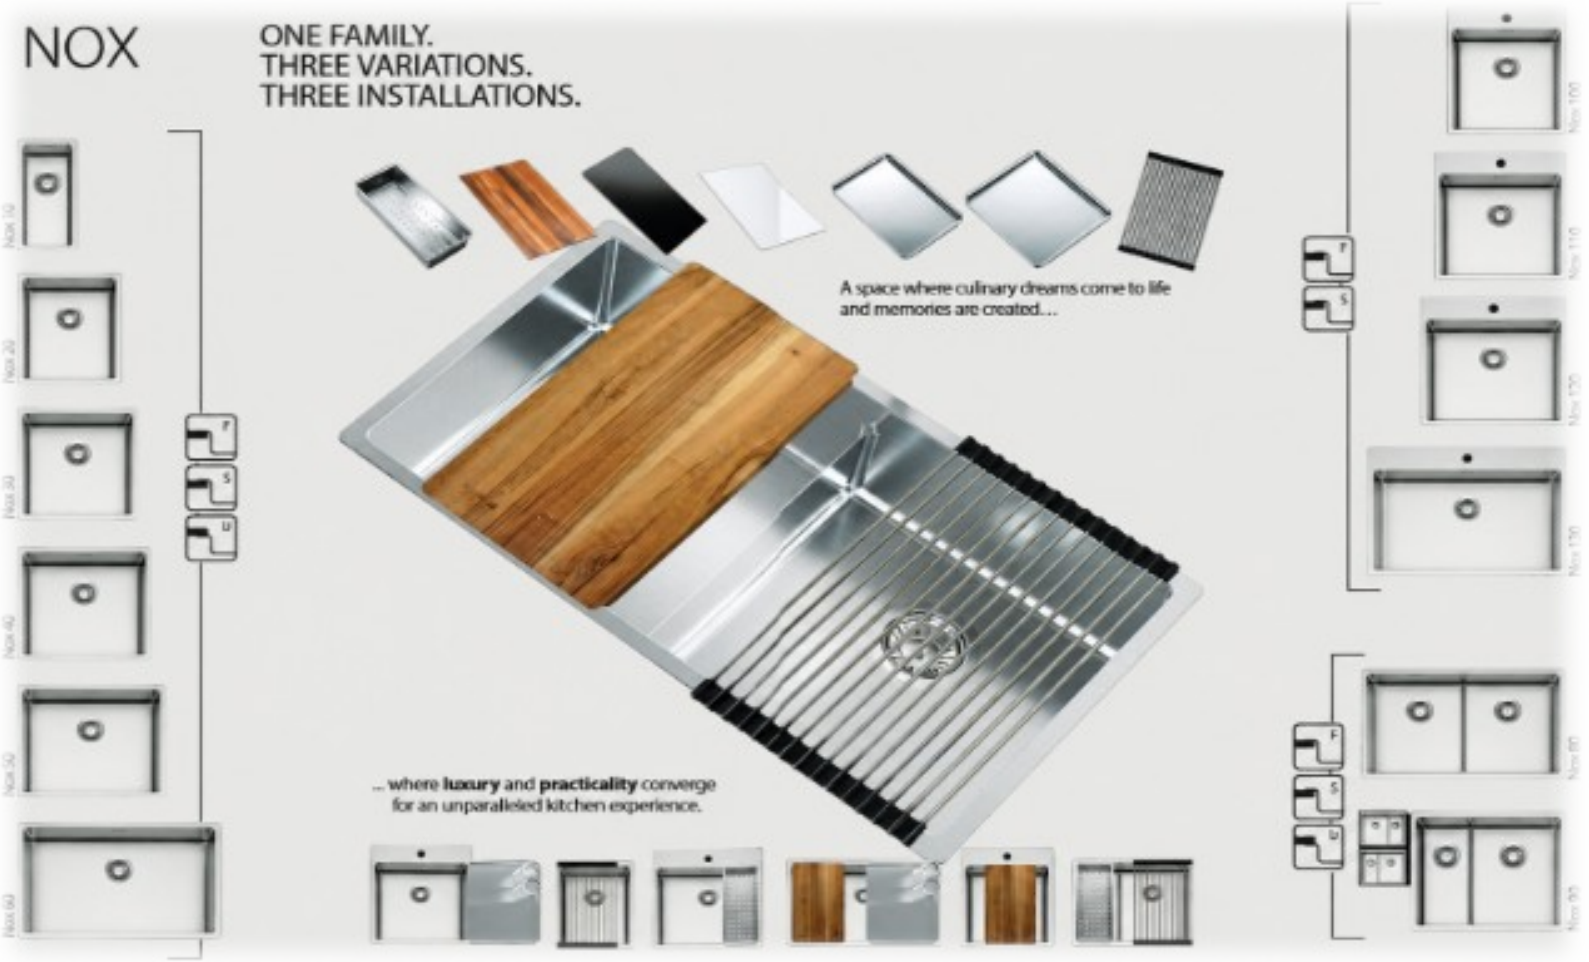

Modern Aesthetics and Affordability

With a sleek, versatile design, stainless steel sinks fit various kitchen styles and offer excellent value for their durability and modern look

NOX

ONE FAMILY.
THREE VARIATIONS.
THREE INSTALLATIONS.

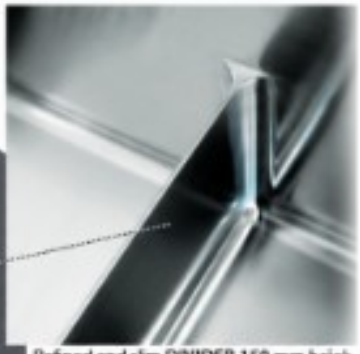

Beautifully designed
INTEGRATED OVERFLOW

Transform your kitchen into a culinary haven with the Alveus Nox stainless steel kitchen sink.

NEW
Nox

NOX

Refined and slim DIVIDER 150 mm heigh.

Alveus INTEGRATED WASTE
with "no-edge" transition

The 20 mm edge adds a sleek finishing touch, creating a seamless transition between the sink and your countertop.

Stainless steel bowl, boasting a solid 1 mm thickness, not only exudes luxury but also guarantees longevity that

The 200 mm depth of the bowl ensures ample space for all your kitchen activities, providing the ideal environment for washing,

NAVA

NAVA is a contemporary kitchen solutions brand created around three essential principles: quality, reliability, and timeless design.
Specializing in kitchen sinks, mixers, and complementary solutions, NAVA combines carefully selected materials, functional engineering, and refined aesthetics to deliver products that perform confidently in all types of projects.

Designed for modern living.

NAVA brings together considered design, reliable materials and practical details for kitchens that are made to be used—and made to last.

OUR COLLECTION

01 **SINKS**
Stainless steel and specialty finishes

02 **MIXERS**
Functional forms with refined control

03 **KITCHEN SOLUTIONS**
Coordinated accessories and appliances

Brand story

NAVA began with a simple vision: to bring thoughtful design into the heart of every kitchen.
Inspired by water, our sinks and mixers celebrate the balance between beauty and everyday purpose.
Our approach pairs clean lines with distinctive finishes for a timeless, contemporary character.
We believe a kitchen should feel as effortless to use as it is inviting to experience.
From preparing a family meal to sharing moments together, NAVA belongs in the rhythm of daily life.
As part of A.E Group, we aspire to make refined kitchen solutions accessible to more homes.
NAVA — Inspired by Water. Designed for Living.

FIRST COMPINED SINK AND DISHWASHER IN ONE ITEM AT YOUR KITCHEN

NV-HI-SW-AI2-BK

TECHNICAL SPECIFICATIONS

OVERALL SIZE	900 × 485 × 490 mm
BOWL SIZE	550 X 440 mm
MATERIAL	SUS 304 stainless steel
THICKNESS	1.0 mm
INSTALLATION	Top / flush / undermount

KEY FEATURES

Premium material
Flexible installation
Coordinated accessories
Saving space
All parts included
Cost effective

FINISH OPTIONS SS | BK

Bring a bold contemporary touch to your kitchen with this NAVA sink station.
Its dark metallic finish creates a striking contrast against light countertops.
The generous single bowl offers ample room for everyday washing and preparation.
A gracefully curved mixer balances the sink's clean, architectural lines.
Alongside the bowl, a sleek black panel gives the composition a distinctive identity.
Coordinated details bring the sink, mixer and surrounding surfaces together.
The result is a refined focal point for kitchens where appearance matters as much as practicality.
NAVA — Inspired by Water. Designed for Living.

Meet our latest products with new technology

CB8 SMART WORKSTATION SINK

NV-PR-DS-01-SS

Digital smart double-bowl workstation sink with an integrated control module.

SIZE	820 x 480 x 370 mm

Top-Quality Materials

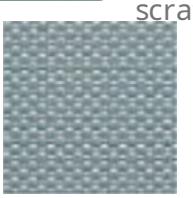

Alveus kitchen sinks are available in several materials, surface finishes and colors. Apart from stainless steel sinks in various finishes, our offer includes selected models combining tempered glass with stainless steel, and models made of high-quality composite material Granital.

Premium Stainless Steel AISI 304

Surface finishes

Alveus stainless steel kitchen sinks are available in four surface finishes, all of high quality but with a different appearance.
The stainless steel surface of Alveus sinks can be smooth and semi-shiny (NAT). Brushing the surface in one straight direction produces brushed (BRS) stainless steel, with a slightly matt, dark and elegantly scratched appearance. Brushing in various directions gives the sink a silky glow with satin finish (SAT). Leinen (LEI) has a tiny pattern that makes stainless steel less sensitive to small scratches.

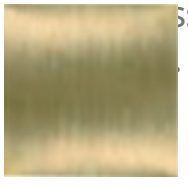

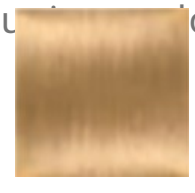

Special surface treatment of stainless steel

A thin vaporized metal substance known as ceramic nitride is deposited onto the stainless steel surface, resulting in a unique metal luster and increased scratch resistance. The surface-treated stainless steel is available in four metal color shades: GOLD, COPPER, ANTHRACITE and BRONZE.
Due to the nature of the surface treatment ss, each sin o with a u or

IMPORTANT CARE INSTRUCTIONS

1. Avoid prolonged contact with:
   - Cleaners containing bleach: wash off within 10 minutes.
   - Plughole unblocks containing sodium hydroxide: wash off within 15 minutes.
   - Corrosive foodstuffs (salt, vinegar, alcohols, fruit juices, tea, mustard, mayonnaise, etc.): wash off within 15 minutes.
   - Strong chemicals (such as concentrated acid or leach): wash off immediately.
2. Do not clean with heavy-duty scourer pads, silver cleaners, steel wool or abrasive powders.
3. Non-scratch pads, soft cloths and mild cleaner liquids, such as specialist stainless steel cleaners, should be used instead. Adhere to the Instructions for Use supplied with the cleaning substance. If in doubt, test on an inconspicuous area first (the underside of the sink).
4. The sinks should be cleaned and dried regularly, ideally every evening after use. Wiping them dry with a soft cloth will prevent limescale deposits and the gradual appearance of patchy color staining.
5. Utensils or tools made of carbon steel without a protective surface should not be left in the sink, as they may deposit iron particles, which develop into rust stains over time.

CAUTION

Silver cleaners, steel wool pads, bleach, or abrasive detergents can damage the tap finish, so they should be avoided. Chlorine detergents (soda hypochlorite) or hydrochloric acid can have a similar effect.

Installation

When installing the kitchen mixer tap, we advise you to use the service of professional installers, as the guarantee does not cover any damage caused by improper installation and repair.

Before installing a mixer tap, all water pipes must be thoroughly rinsed. To avoid mechanical damage to the mixer tap caused by dirt or coarse particles from the plumbing, it is necessary to attach a mixer tap to the Alveus angle valves filter.
